56-2151

Granactive Retinoid

1 PRODUCT AND COMPANY IDENTIFICATION

Product Identifier:	Granactive Retinoid
SDS Number:	159
Revision Date:	5/31/2024
Version:	1.3
CAS Number:	Mixture
Chemical Family:	Vitamin A for topical cosmetics
Chemical Formula:	NA
Product Use:	Topical Cosmetic use only
Supplier Details:	Grant Industries, Inc. 103 Main Avenue Elmwood Park, NJ 07407
Contact:	Regulatory Dept
Phone:	201-791-8700
Fax:	not active
Email:	regulatory@grantinc.com
Web:	www.grantinc.com
Emergency:	Regulatory Dept

REACH COMPLIANT SDS

Safety data sheets (SDSs) have been a well-accepted and effective method for the provision of information to recipients of substances and mixtures in the EU. These have been made an integral part of the system of Regulation (EC) No 1907/2006 (REACH) 1. The original requirements of REACH for SDSs have been further adapted to take into account the rules for safety data sheets of the Global Harmonised System (GHS) and the implementation of other elements of the GHS into EU legislation that were introduced by Regulation (EC) No 1272/2008 (CLP) 3 via amendments to Annex II of REACH 4. This SDS is now updated to include changes for Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

2 HAZARDS IDENTIFICATION

Classification of the Substance or Mixture

GHS Classification in Accordance with 29 CFR 1910 (OSHA HCS):

Health, Reproductive toxicity, 2

GHS Label Elements, Including Precautionary Statements

GHS Signal Word: WARNING

GHS Hazard Pictograms:

GHS Hazard Statements:

H361 - Suspected of damaging fertility or the unborn child (state specific effect if known)(state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard)

GHS Precautionary Statements:

P201 - Obtain special instructions before use.
P202 - Do not handle until all safety precautions have been read and understood.
P281 - Use personal protective equipment as required.

Hazards not Otherwise Classified (HNOC) or not Covered by GHS

Target Organs: Developmental toxicity

3 COMPOSITION/INFORMATION OF INGREDIENTS

INCI NAME	CAS#	EINECS #	Range %
Dimethyl Isosorbide	5306-85-4	226-159-8	89.5 - 90.5
Hydroxypinacolone Retinoate	893412-73-2	<1Tonne	9.5 - 10.5

4 FIRST AID MEASURES

Inhalation: Remove victim to fresh air. Seek medical attention if respiratory irritation or distress occurs.
Skin Contact: Wash affected areas with soap and water. Consult physician if irritation persists.
Eye Contact: Flush eyes with water for at least 15 minutes. Consult physician if irritation persists.
Ingestion: Call a physician immediately. Do not induce vomiting without medical advice.

5 FIRE FIGHTING MEASURES

Flammability: Combustible
Flash Point: >212 °F
Flash Point Method: closed cup
Autoignition Temp: NA
Extinguishing Media: Water, CO2, dry chemical, foam
Special Fire Fighting: Use sefl-contained breathing apparatus, due to possible generation of toxic fumes.

6 ACCIDENTAL RELEASE MEASURES

Dike and soak up with inert absorbent material (e.g. sand, silica gel, sawdust). Remove and dispose of in accordance with federal, state, and local laws.

7 HANDLING AND STORAGE

Handling Precautions: Use with adequate ventilation, avoid eye and skin contact.
Maintain storage in low actinic (UV shielded) conditions, nitrogen headspace and <25C.

Storage Requirements: Keep from freezing. Keep container closed.
Preferably Granactive Retinoid should be stored within a temperature range of 15?C-27?C in low actinic glassware and
sparged with an inert gas (Nitrogen or Argon).

8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls: Maintain air concentrations in work spaces in acord with standards outlined in sections 2 and 3.
Personal Protective Equipment: HMIS PP, B | Safety Glasses, Gloves
Eye contact should be prevented through use of chemical safety glasses with side shields or splash proof goggles. An emergency eye wash should be readily accesible to the work area. Skin contact should be minimized through use of gloves and suitable long-sleeved clothing (i.e., shirts and pants).

9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Liight Yellow		
Physical State:	Liquid	**Odor:**	Typical
Spec Grav./Density:	1.10 – 1.20	**Solubility:**	insoluble in water
Boiling Point:	NA	**Freezing/Melting Pt.:**	NA
Flammability:	Combustible	**Flash Point:**	>212 °F
Vapor Pressure:	NA	**Vapor Density:**	Not Determined
pH:	NA		

10 STABILITY AND REACTIVITY

Chemical Stability: Stable at moderate temperatures. Avoid Oxygen/air and light (UV) exposure to maintain at optimal conditions
Conditions to Avoid: Avoid sparks or combustion sources. Use with adequate ventilation.
Materials to Avoid: None known
Hazardous Decomposition: None known
Hazardous Polymerization: None known

11 TOXICOLOGICAL INFORMATION

ute toxicity -
Acute toxicity estimate: >5000 mg/kg at <5% use level as recommended in cosmetics.
Method: Calculation method

not irritating or sensitizing at 5% test concentration

Special Remarks on Chronic Effects on Humans.

Ingestion may cause adverse reproductive effects and birth defects (teratogenic/developmental toxin) based on guidelines presented by the National Toxicology Program in their monograph recommendations for the general class of Vitamin A, it's derivatives and related materials. This assesment is not unique for Granactive REtinoid and is the same for all vitamin A derivatives.

Potential Chronic Health Effects:
Carcinogenic Effects: Not available
Mutagenic Effects: Not Mutagenic.
Teratogenic Effects: Classified POSSIBLE for Human
Developmental Toxicity: Classified developmental toxin (POSSIBLE)
[Both of these possible effect will not be present when formulated into cosmetics at targeted cosmetic use levels of <0.4% active]

NOAEL < 0.4% HPR (based on typical Vitamin A)

MoS as used > 100x @ <0.5% HPR use level (typical for cosmetic vitamin A)

12 ECOLOGICAL INFORMATION

Environmental Fate and Distribution: No specific information is available.

13 DISPOSAL CONSIDERATIONS

Waste Disposal: Dispose in accordance with local, state and federal laws.
Recommend first diluting this product to 0.5% active retinoid (in non-hazardous solvent or surplus cosmetic emulsion) to lower Vitamin A level appropriately to comply with non-hazardous disposal. See section 02 and 15 for specific handling and requirements.

14 TRANSPORT INFORMATION

Road shipment information (49 CFR 172.101) DOT ADR

NON-BULK
Proper Shipping Name: Not regulated
BULK
Proper Shipping Name: Not regulated

TRANSPORTATION INFORMATION-IMO/IMDG CODE (OCEAN)

Not subject to IMDG code.

TRANSPORTATION INFORMATION-ICAO/IATA (AIR)

Not subject to IATA regulations.

15 REGULATORY INFORMATION

Contents of this MSDS comply with the OSHA Hazard Communication Standards 29CFR 1910.1200

EPA SARA Title III Chemical Listings:

Section 302 Extremely Hazardous Substances:	None
Section 312 Hazard Class:	
Acute:	No
Chronic:	yes
Fire:	no
Pressure:	No
Reactive:	No
Section 313 Toxic Chemicals:	None present or none present in regulated quantities.

This product contains 240,000 IU retinol equivalent.
THis product is intended for topical cosmetic use only. Do not ingest.
This product does not contain chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

16 OTHER INFORMATION

Grant Industries, Inc. has shipped this product at your request with the understanding that we have no control over the storage, handling, and conditions of use, which are of critical importance.
Grant Industries, Inc. does not assume any liability for any injury to persons or property arising out of the use, handling or storage of this material.
The information included in this document is given in good faith and represents our best present state of knowledge relevant to safety requirements but is offered without guarantee or warranty.
